

§ 2.7

18 CFR Ch. I (4-1-00 Edition)

(d) Immaterial, unimportant or routine changes will not be suspended.

(e) During suspension, the prior existing rate schedule continues in effect and should not be changed during suspension.

(f) Changes under escalator clauses may be suspended as changes in existing filed schedules.

(g) Suspension of a rate schedule, within the ambit of the Commission's statutory authority is a matter within the discretion of the Commission.

(Natural Gas Act, 15 U.S.C. 717-717w (1976 & Supp. IV 1980); Federal Power Act, 16 U.S.C. 791a-828c (1976 & Supp. IV 1980); Dept. of Energy Organization Act, 42 U.S.C. 7101-7352 (Supp. IV 1980); E.O. 12009, 3 CFR part 142 (1978); 5 U.S.C. 553 (1976))

[Order 141, 12 FR 8471, Dec. 19, 1947. Redesignated by Order 147, 13 FR 8259, Dec. 23, 1948, and amended by Order 303, 48 FR 24361, June 1, 1983; Order 575, 60 FR 4852, Jan. 25, 1995]

§ 2.7 Recreational development at licensed projects.

The Commission will evaluate the recreational resources of all projects under Federal license or applications therefor and seek, within its authority, the ultimate development of these resources, consistent with the needs of the area to the extent that such development is not inconsistent with the primary purpose of the project. Reasonable expenditures by a licensee for public recreational development pursuant to an approved plan, including the purchase of land, will be included as part of the project cost. The Commission will not object to licensees and operators of recreational facilities within the boundaries of a project charging reasonable fees to users of such facilities in order to help defray the cost of constructing, operating, and maintaining such facilities. The Commission expects the licensee to assume the following responsibilities:

(a) To acquire in fee and include within the project boundary enough land to assure optimum development of the recreational resources afforded by the project. To the extent consistent with the other objectives of the license, such lands to be acquired in fee for recreational purposes shall include the lands adjacent to the exterior margin of any project reservoir plus all other

project lands specified in any approved recreational use plan for the project.

(b) To develop suitable public recreational facilities upon project lands and waters and to make provisions for adequate public access to such project facilities and waters and to include therein consideration of the needs of physically handicapped individuals in the design and construction of such project facilities and access.

(c) To encourage and cooperate with appropriate local, State, and Federal agencies and other interested entities in the determination of public recreation needs and to cooperate in the preparation of plans to meet these needs, including those for sport fishing and hunting.

(d) To encourage governmental agencies and private interests, such as operators of user-fee facilities, to assist in carrying out plans for recreation, including operation and adequate maintenance of recreational areas and facilities.

(e) To cooperate with local, State, and Federal Government agencies in planning, providing, operating, and maintaining facilities for recreational use of public lands administered by those agencies adjacent to the project area.

(f)(1) To comply with Federal, State and local regulations for health, sanitation, and public safety, and to cooperate with law enforcement authorities in the development of additional necessary regulations for such purposes.

(2) To provide either by itself or through arrangement with others for facilities to process adequately sewage, litter, and other wastes from recreation facilities including wastes from watercraft, at recreation facilities maintained and operated by the licensee or its concessionaires.

(g) To ensure public access and recreational use of project lands and waters without regard to race, color, sex, religious creed or national origin.

(h) To inform the public of the opportunities for recreation at licensed projects, as well as of rules governing

the accessibility and use of recreational facilities.

[Order 313, 30 FR 16198, Dec. 29, 1965, as amended by Order 375-B, 35 FR 6315, Apr. 18, 1970; Order 508, 39 FR 16338, May 8, 1974]

§2.8 Simplification of wholesale electric rate schedule filings.

(a) In making changes in rate schedules required to be on file with the Commission, public utilities may find it advantageous to file substitute sheets to reflect changes, in lieu of filing rate schedule supplements.

(1) *Identification—substitute sheets.* (i) At the top right of the page, the sheet number may be designated as “——— Revised Sheet No. ——”, followed by “Superseding —— Sheet No. ——”. The first of these blanks would show the number of the revision (i.e., first, second, etc.) and the sheet number would be the same as the sheet replaced. The third and fourth blanks would be filled according to the numbering of the sheet replaced.

(ii) Sheets which are to be inserted between two consecutively numbered sheets may be designated “Original Sheet No. ——”, with the blank space filled with the appropriate number and a letter to indicate an insertion (i.e., between Sheet Nos. 1 and 2, Original Sheet No. 1a).

(iii) Customer agreement, if required, may be indicated on the bottom of the page, by the signature of the person authorized to agree to the proposed change. The name and title of the person authorized to file the substitute sheet may also be shown on the bottom of the page.

(b) Whenever pursuant to §35.12 of this chapter an initial rate schedule filing is to be made, or whenever pursuant to §35.13 of this chapter a rate schedule is to be replaced in its entirety or extensively revised (for example if a large number of the pages are to be changed), public utilities may find it advantageous to use a simplified format, such as the following:

(1) *Format.* A brief service agreement setting forth such items as the name of the purchaser, service to be rendered, term of the agreement, and signatures of the parties. Applicable points of delivery and delivery voltages, applicable rates and charges and applicable terms

and conditions may be incorporated in the agreement by reference to separate appendices attached thereto as follows:

(i) Appendix setting forth in detail delivery points, delivery voltages and metering voltages.

(ii) Appendix containing a statement of the rates and charges, set forth separately under appropriate headings such as: Demand charges, energy charges, billing demand determinants, power factor clauses, minimum bill provisions, etc.

(iii) Appendix containing terms and conditions, set forth separately under appropriate headings such as: Services, facilities at the points of connection, meter adjustments, continuity of service, liability, etc.

(2) *Identification.* (i) At the top right of the page, the sheet number may be designated as “Original Sheet No. ——”.

(ii) Sheets which are to be replaced or inserted may be designated in the same manner suggested in paragraph (a)(1) of this section.

(Secs. 205, 206, 49 Stat. 851, 852; 16 U.S.C. 824d, 824e)

[Order 347, 32 FR 7494, May 20, 1967]

§2.9 Conditions in preliminary permits and licenses—list of and citations to “P—” and “L—” forms.

(a) The Commission has approved several sets of standard conditions for normal inclusion in preliminary permits or licenses for hydroelectric developments. In a special situation, of course, the Commission in issuing a permit or license for a project will modify or eliminate a particular article (condition). For reference purposes the sets of conditions are designated as “Forms”—those for preliminary permits are published in Form P-1, and those for licenses are published in Form L’s. There are different Form L’s for different types of licenses, and the forms have been revised from time to time. Thus at any given time there will be several series of standard forms applicable to the various vintages of different types of licenses. The forms and their revisions are published in the Federal Power Commission reports and citations thereto are listed below.

(b) New or revised forms may be approved after preparation of this list
